were removed during off-loading after which all the vehicles left under their own power carrying only the driver and drove through EBERSWALDE in an easterly direction.

(a) 30 Sep 57

From 1100 - 1300 hrs the following transport was off-loaded:

20 tracked prime movers M 1954.

These were also driven away under their own power in an easterly direction.

3. BERNAU RAILWAY BRIDGE

17 Sep 57

At 1500 hrs a military goods train of about 50 [ ] was standing on and overlapping at the forward end, the railway bridge which crosses the BERNAU/BERLIN road. The locomotive was pointing in the direction of BERLIN.

25X1

The following were identified:

- (i) A number of [ ] various types.
- (ii) 8 - 10 completely covered tracked vehicles with super-structure.
- (iii) 8 x T.34 tanks uncovered.

25X1

At 1600 hrs the off-loading by Soviet troops had started and the tarpaulins were being pulled away. The following further details were observed:

- (i) A T.34 chassis carried a sloping rectangular multicruciform steel framework of approximately the width of the chassis and slightly longer. In general as shown in the attached sketch No. 1.
- (ii) 3 - 4 tracked AFVs. It was not possible to see the number of bogey wheels. In place of the turret was a cylindrical structure about 80 cm high and about 1.2m in diameter. The vehicle looked less massive than an ordinary tank. The [ ] appearance of the vehicle was as shown on the attached sketch No. 2. They were painted dark green.
